

Mud Chucker™ No. 229

BEST Performance

Defined by its ability to effectively scrape dirt, snow or any other muck off both the sides and the bottoms of shoes, the Mud Chucker can be used in conjunction with an entrance mat in very challenging areas, or as a stand-alone product in tight spaces. It can be permanently installed at your entrance or used as a mobile entrance mat for workers who toil in muddy areas and then travel to another location. To clean, simply shake the dirt off or spray down with a hose.
