indoor

## FEATURES AND BENEFITS

- Available in two versions; Carpet/Rubber Frame with adhesive insert and Rubber Frame only with adhesive insert. Frames and adhesive inserts are sold separately.
- The Clean Stride mat provides a highly effective dirt and dust removal method for factories: paint booth areas, etc., computer rooms, clean rooms, warehouses, schools: gymnasiums & arts & crafts rooms, healthcare facilities, internal construction and more. As foot traffic passes over the mat, the Waterhog surface scrapes larger particles while the adhesive insert captures smaller dust & dirt and stops them from being tracked in.
- The Clean Stride adhesive insert is comprised of 60 layers of adhesive film. Each layer will perform many times before it must be peeled away. Each layer is numbered to ensure one sheet at a time removal and to indicate the remaining layers.
- Green friendly rubber backing has 15-20% recycled rubber content.
